

# ORIGEN TECH

**SOLaaS - Additional Resources**

# ORIGEN TECH: Origen S/4HANA SOLaaS.

Businesses must adapt constantly to new market challenges and realities. That requires change not only in the way things get done but how you make it easier for your customers and internal workers to embrace it. Change means accelerating the journey to the cloud leveraging the broader value of S/4 and RISE with SAP business application software along with ongoing services, analytics and BI to drive continuous improvement and adoption of Industries' best practices, in other words the foundation of the Intelligent Enterprise.

**Origen S/4HANA SOLaaS** powered by SAP is a next generation concept in IT cloud computing services. Origen S/4HANA SOLaaS goes beyond software as a service. It provides companies with the technological framework that combines the cloud infrastructure, software, sustainability and professional service experts, necessary to holistically manage your mission-critical operations. It will allow you to meet your business requirements for faster deployment, scale your infrastructure quickly and easily, ensure high availability to keep your services running and minimize administrative time, effort and cost (OPEX vs CAPEX).

**S/4HANA SOLaaS, powered by SAP brings together the solutions and services you need for true business transformation, in one package, regardless of where your business stands now or where you want it to go. It is our partnership helping you shape your change on your terms and your timeline.**
