SOLaaS™

POWERED BY ORIGEN TECH

SOLaaS™

SAP adoption has never been so easy.

Index

Why Origen Tech?

We have an extensive experience implementing SAP for global multinationals. We are now extending our SAP S/4HANA solution to the SMB market. This unique and packetized offer combines professional services and support, leaded by experts and at the best competitive price in the market.

Premium service for all our customers

- **Pre project:** Business and continuity strategy.
- **Case Delivery:** Functional setup, business process reengineering, PMO and change management, Integration, Network adoption, Security and Compliance.
- **Software and Infrastructure:** Subscription Software, Maintenance, Support, Infrastructure, SAP Technology Managed Services.

S/4HANA SOLaaS™

Origen Tech **S/4HANA SOLaaS**™ goes beyond software as a service. It provides companies with the technological framework that combines the cloud infrastructure, software, sustainability, and professional service experts, necessary to manage your critical operations of business.

Origen Tech **S/4HANA RISE SOLaaS**™ is a holistic transformation journey that help companies to extend their ability to quick respond to market evolution, simplify operations and minimize disruptions while lower the costs of transformation.
